

IDIQ
AIRCRAFT ACQUISITION AND SUPPORT CONTRACT

ATTACHMENT 7, Base Support Agreement(s)

Base Support Agreement: Andrews AFB

The Government agrees to furnish the Logistics Support Contractor (LSC) certain base support, which will be made available in reasonable amounts. The LSC shall report any inadequacies or non-availability of items, together with a recommended plan for obtaining the items.

Contractor will provide all personal safety equipment.

An Associate Contract Agreement may be required if a contractor is to provide equipment, facilities, training or personnel.

1. Base Services in reasonable amounts determined by the Wing Commander on a no-charge basis as follows:

- a. Mail pick-up and delivery.
- b. Base bus and taxi service.
- c. Base fire and security and waste disposal services for all areas.
- d. Adequate warehousing (excluding material handling equipment).
- e. Office space for contract maintenance administrator of 1,700 square feet, maintenance shop and storage space of 10,000 square feet. Communication and power requirements for this space include: commercial data line for EDT and Fax; two (2) Class "C" telephone lines; 115 volt power receptacles.
- f. Utilities (excluding Class "A" telephone) associated with the Contractor's facility, maintenance administrative office area, maintenance shop area, and maintenance storage area. The Government shall maintain all utility systems and safety equipment in the Contractor occupied facilities.
- g. The Government shall perform grass cutting to within 75 feet of the Contractor occupied facility. The Contractor shall be responsible for grass cutting within 75 feet of the assigned building(s).
- h. Officer/NCO Club facilities privileges upon meeting the required qualifications.
- i. Base passes and identification clearances registration.
- j. Flight line operation services including: vehicle passes, flight line driver training (train the trainer), and mobile radios (program funded) for flight line communication as required.
- k. GS-11 status for LSC Supervisory Personnel (and Flight Technicians while on operational missions) and GS-09 status for all other Contractor employees.
- l. Weather advisory support.

2. Ambulance and emergency medical care will be provided on a reimbursable basis.

3. The following will be made available as required on a no-charge basis:

NOTE The contractor will do all servicing of the aircraft.

- a. Hangar and ramp space as required and as available. NMC time will not accrue if lack of hangar space causes a NMC condition after a determination has been made based on the nature and extent of the maintenance required. The 89th LG/CC or designated representative will have final authority on the amount of non-reporting time given for lack of hangar space.
- b. De-icing truck and driver.
- c. Aircraft wash facility.
- d. Fire fighting equipment, including training of LSC personnel. No training is offered for hangar deluge systems.

- e. Latrine servicing vehicle with driver.
- f. Potable water servicing vehicle with driver.
- g. Gaseous oxygen/nitrogen servicing carts.
- h. Fumigation requirements.
- i. Refuel/de-fuel servicing vehicle with driver.
- j. Coleman (type or equivalent) aircraft towing vehicle with driver training for LSC personnel.
- k. Hangar hazardous material storage containers and disposable equipment.
- l. Maintenance Shop and storage space.
 - (1) Covered space for spare APU on transportation cart and spare engine (1 ea.) on transportation dolly and 737 ground support equipment.
- m. Aircraft Ground Support Equipment listed in paragraph 5.
- n. Catering (Food Service) Truck with driver.
- o. Bar code reader

4. The following government facilities and personnel will be made available on a no-charge basis to repair aircraft equipment contained in the Contractor's facility (priority to be determined by 89 LG/CC or designated representative). NMC time will not accrue if lack of hangar space causes a NMC condition after a determination has been made based on the nature and extent of the maintenance required. The 89th LG CC or designated representative will have final authority on the amount of non-reporting time given for lack of hangar space.

- a. Metals technology (machine and welding) shop.
- b. Non-Destructive Inspection (NDI) shop.
- c. Gaseous oxygen/nitrogen
- d. Aerospace Ground Equipment (AGE)
- e. Precision Measurement Equipment Laboratory (PMEL). The list of equipment is preliminary and will be defined after contract award and will be a living document that will change throughout the systems life.

* If the calibration procedures are not currently available in the PMEL, the contractor is responsible for providing the data.

- f. Aircraft structural shop
- g. Cabinetry shop
- h. Life support/survival equipment back-shop
- i. Fuel cell hangar to include facility/equipment training for LSC personnel.
- j. Base hazardous material facilities.
- k. Class "C" explosive disposal facilities.

5. The following list of Aircraft Ground Equipment (AGE) is currently available at Andrews AFB MD: The "quantity required column" indicates the minimum requirements to support the C-40 B aircraft.

Equipment will be available to the LSC on a limited numbers and as required basis as determined by the 89th LG CC

NOMENCLATURE	NSN	Quantity Required
AM32A-86A Diesel Generator (or equivalent)	6130-01-222-0475	1
AM32A-86D Diesel Generator	6115-01-155-2340	1
Motor Generator (Hangar power)	P/N 3611017	1
MC-1A Air Compressor	4310-01-060-0642	1
Power Cart	6130-01-241-8069	1
MC-2A Air Compressor	4310-01-192-0976	1
A.C.E. Air Conditioners	4120-01-154-9127	1
MB-8 Air Compressor	4310-01-178-7539	1
-95 LASS (Air Cart for bleed air engine start)	2835-01-21-9272YZ	1
1-H1 Heater	4520-01-135-2770	1
MD-4 Motor Generator	6125-01-073-5341	1
MD-2 Motor Generator	6125-01-129-1884	1

T-48D Mode S ATCRBS DME Test Set	TBD	1
APM-424 IFF Transponder Test Set	6625-01-152-6705	1

GOVERNMENT FURNISHED EQUIPMENT/FURNITURE INVENTORY

In addition to Buildings provided (Warehouse 01 in Building 1752, Warehouse 02 in Building 1762, existing shelving and Hanel ROTOMAT Bins; storage lockers for HAZMAT, explosive, and CCI equipment, the following government furnished equipment furniture shall be provided.

NOTE: The assets listed in the table below are currently in-place to support the C-32A under contract number F36401-96-C-0605. Selected items from this Table can be jointly used to support the C-32A and C-40B program on an as required basis. Should any or all of the remaining C-32A CTS contract options not be exercised, the below listed equipment would be required to support the C-40B on a stand alone contract.

1. Digital Julian Date Clock (2 each)	67. Clamp, Bar, 16 inch (2 each)
2. Clock, Standard (5 each)	68. Clamp, Wood, 10 inch (1 inch)
3. Trash Can, Small (19 each)	69. Clamp, Table Mounted (2 each)
4. Trash Can, Large (5 each)	70. Nail Puller, Side hammer Type (1 each)
5. Table, Receiving Workstation (2 each)	71. Stencil Set, 2 inch (4 each)
6. Fan, Small (4 each)	72. Stencil Set, 4 inch (2 each)
7. Fan, Warehouse (3 each)	73. Stencil Fountain Brush (1 each)
8. Stock Picker Cart, Rolling (5 each)	74. Oil Can (1 each)

9. Pallet Cart, Rolling (1 each)	75. Honing Stone (1 each)
10. Pallet Truck (2 each)	76. Miter Box & Hacksaw (1 each)
11. Hand Truck (2 each)	77. Hand Trowel, Small (2 each)
12. Vacuum Cleaner, Canister (1 each)	78. Crease Float (1 each)
13. Stock Ladder, Rolling, 8 ft (2 each)	79. Hammer, Claw (4 each)
14. Stock Ladder, Rolling, 12 ft (2 each)	80. Hammer, Ball Peen (3 each)
15. Stock Ladder, Rolling, 4 ft (1 each)	81. Crowbar, 12 inch (1 each)
16. Extension Ladder, wood, 12 ft (1 each)	82. Crowbar, 13 inch (1 each)
17. Folding Ladder, Metal, 5 ft (1 each)	83. Crowbar, 30 inch (1 each)
18. Coat Rack (5 each)	84. Air Pressure Gauge (1 each)
19. Cabinet, Storage (7 each)	85. Punches, Assorted Sizes (4 each)
20. Cabinet, File (3 each)	86. Drill, Hammer (4 each)
21. Book Case, Metal (9 section)	87. Drill Bits, Auger (7 each)
22. Book Case, Small, 3 Shelf (1 each)	88. Twist Drill Bits, Indexed and Assorted Sizes
23. Book Case, Large, 4 Shelf (1 each)	89. Screw Driver, Push, 20 inch, Stanley (1 each)
24. Scale, Floor, 20,000lbs W/ Charger (1 set)	90. Chisel (1 each)
25. Scale, Floor, 3,000lbs	91. Screw Drivers, Assorted Phillips and Slotted
26. Scale 3 Beam Balance, 25lbs	92. Torch Kit, Soldering *Missing Nozzle Tube* (1 each)
27. Scale, Table, 70lbs	93. Open End Box Wrench Set W/ Carrying Sleeve (1 set)
28. Tape Machine, Gum Dispensing (2 each)	94. Allen Wrench Set W/ Carrying Sleeve (1 set)
29. Banding Dispenser W/ Tray (1 each)	95. Assorted Loose Allen Wrenches (8 each)
30. Banding Dispenser W/O Tray (1 each)	96. 1/4 Inch Socket Set W/ Case & Hand Wrench (1 set)
31. Stencil Machine, 1 inch (1 each)	97. 3/8 Inch Socket Set W/ Toolbox (1 set)
32. Stencil Machine, 1/2 inch (1 each)	98. Assorted 1/2 Sockets (8 each)
33. Saw, Table, Rockwell Deta (1 each)	99. Assorted Open End Box Wrenches (19 each)
34. Saw, Radial Arm, DeWalt (1 each)	100. Compaq Proliant 5000 6/200 Model 1X Server (1 each)
35. Drill, Cordless W/ Charger & Case, DeWalt (1 each)	PI 5000 CPU Kit 200 512K (1 each)
36. Drill, Cordless, W/ Charger, Extra Battery & Case	4.3 GB Pluggable Wide-Ultra SCSI (9 each)
37. Stapler, Electric, Duo Fast (1 each)	15" V50 Color Monitor (1 each)
38. Saw, Circular, Heavy Duty, 5 1/2 inch, Skill (1 each)	STK 9704 Backup Unit (1 each)
39. Label Maker, Label Shop 2001XL (1 each)	UPS 2200, (rack version) 208V Connection (1 each)
40. Jig Saw, Bosh (1 each)	Marway Power Distribution Unit (1 each)
41. Jig Saw, Black & Deck (1 each) *Broken Chuck Clamp* (1 each)	12' 208V AC Power Cord, EIC to 6-15P (1 each)
42. Nail Gun, Cordless, Paslode Impulse W/ Battery, Charger & Case (1 each)	6' 208V AC Power Cord, EIC to 6-15P (1 each)
43. Drill, 1/2 inch, Skill (1 each)	101. 25 Tape Carousel (1 each)
44. Drill, 1/4 inch, Pet (1 each)	102. HP 5 si-mx LaserJet Printer (3 each)
	103. DELL Computer System w/ SX CD-

45. Belt Sander, Portable, 4 inch, Rockwell (1 each)	ROM (8 each) Phillips 17" Monitor (5 systems)
46. Plate, Loading Dock, Steel (1 each)	Mitsubishi 21" Monitor (3 systems)
47. Eye Wash Station (1 each)	PCMCIA Type II-III Port (3 systems)
48. Pallet Lever (1 each)	104. Intel Proshare Video Conferencing Equipment (1 each)
49. Forklift Adapter, Rug Roll (1 each)	105. Sun UltraServer 1 Model 170E (1 each)
50. "I." Square, 24 inch	3.5 1.44 MB Internal Floppy Disk Drive with Cable (1 each)
51. Framing Square, 24 inch (1 each)	2.1 GB 7200RPM Internal FAST/WIDE (1 each)
52. Folding Architect Ruler, 24 inch (1 each)	Sun CD 4 Internal CD-ROM Drive (1 each)
53. Folding Architect Ruler, 71 inch (2 each)	128 MB Memory Expansion (2 x 64MB) (1 each)
54. Rule & Level, Stanley (1 each)	Type 5 Country Kit for US and Canada (1 each)
55. Chalk Line Reel (1 each)	Solaris 2.X Media for New Systems (1 each)
56. Crimping Tool, Banding (6 each)	Solaris Desktop to Server License for Solaris 2.x and 1.x (1 each)
57. Tightening Tool, Banding (9 each)	Motif 1.2 Window Manager or Equivalent X11R5 X Server S/W or Greater (1 each)
58. Dresser Wheel (1 each)	
59. Dexion Cutter (1 each)	106. Wang 380 406 Microsystem W Monitor (1 each)
60. Band Cutter (1 each)	107. U.S. Robotics Modem for QRC Support Center (1 each)
61. Sheet Metal Shears, Broad (2 each)	108. HP 700 92 Dump Terminal for C-137 Inventory (5 each)
62. Sheet Metal Shears, Needle Nose (1 each)	109. Keyboard for HP 700 97 Dump Terminal (4 each)
63. Hand Saw, Crosscut (2 each)	110. HP 2934A Printer (2 each)
64. Hand Saw, Rip (2 each)	111. CODEx 2121 Modem (2 each)
65. Hacksaw (2 each)	112. TC-500A Multiplexer (2 each)
66. Hand Planer, Stanley (1 each)	

Base Support Agreement: Hickam AFB

AIRCRAFT ACQUISITION AND SUPPORT CONTRACT
STATEMENT OF WORK

Definitions	
Aircraft	Any aircraft ordered in accordance with the terms of this contract or aircraft leased in accordance with the F33657-02-C-0001.
Basic Airplane	For each aircraft type that may be purchased under this contract (e.g. C-32, C-40B) the Basic Airplane is defined in the applicable initial Configuration Alternative in Attachment 5, exclusive of any additional customer selected alternatives.
Basic C-40 Series Airplane	The Basic Airplane defined above, plus the selected series interior, the fuel tanks and winglets if applicable, and C-40 series avionics identified in the applicable specification. Excludes Passenger Communication and Passenger Data Systems.
Dispatch Reliability Rate	The percentage of scheduled missions started and completed without interruption, air turn backs, diverted landings or delays greater than 15 minutes.
Full Mission Capable (FMC)	Aircraft can perform all of its assigned missions.
Interiors	Installed interior configuration, including seats, lavs, galleys, monuments and interior finishes. Excludes Passenger Communication and Data systems and support equipment associated with removal, replacement or storage of interior feature.
Mission Capable (MC)	Aircraft can perform one or more of its assigned missions.
Minimum Equipment List (MEL)	A list of aircraft systems that must be operational for the aircraft to fly its assigned missions as defined in the master Minimum Equipment list and the Dispatch Deviation Guide.
Partial Mission Capable	The aircraft can fly at least one of its missions based on a minimum equipment list and dispatch deviation guide, but not all missions, due to a need for parts or maintenance that would classify the aircraft as fully mission capable.
Production Airplane	Green airplane produced at Contractor facilities prior to ferry to completion center for installation of interiors and other modifications.

1.0 Scope.

The Contractor shall manufacture, and the Government shall purchase aircraft as ordered under Section B of this contract, Contract Line Items. The Contractor shall provide support services for both purchased and leased aircraft in the integrated fleet as ordered under Section B, Contract Line Items, and as identified in Attachment 2, Clause C-007.

The aircraft will be operated worldwide and have no combat mission. The contractor shall provide all support elements, as defined in the System Support Specification, Attachment 4, for each applicable, aircraft, as identified in Delivery Orders. With respect to the leased aircraft operating under this contract, the Government Lessee shall not use or permit to be used, Iraq, Iran, Libya, for any purpose for which the aircraft is not designated and reasonably suited.

A maintenance program in accordance with FAA practice will be used to operate and maintain the aircraft. Operator personnel will provide the maintenance capability while enroute, with support from the contractor's worldwide logistics resources and contractor field service representatives as required. Full Contractor Logistics Support will provide line maintenance (if ordered), contractor owned spare parts and managed component repair, peculiar support equipment and PSE maintenance, and engineering support. The existing commercial worldwide support capability will be adapted to support the aircraft mission as required.

Support services will be managed as Integrated Fleet support services.

2.0 **Applicable Documents.**

The following documents, incorporated by reference in Section D, Attachments 3 and 4 hereto, apply to this statement of work.

C-32A Configuration Collector Specification, D706-52000-1, as revised in accordance with the provisions of this contract.

C-40 Series Configuration Collector Specification, D765-23100, as revised in accordance with the provisions of this contract.

C-40C Configuration Collector Specification, D766-23100-1, as revised in accordance with the provisions of this contract.

C-40C Completion Specification, D766-23300-1, as revised in accordance with the provisions of this contract.

Support System Specification, Attachment 4

3.0 **Requirements.**

The contract shall be performed in accordance with Contractor's commercial practices. This Statement of Work (SOW) identifies tasks relating to the procurement, manufacture, delivery and support of the aircraft that are not specifically addressed in the applicable specifications. Data prepared pursuant to the specifications will be delivered in accordance with CDR1 delivery instructions.

3.1 **Aircraft Physical Security.**

Contractor shall provide a means to secure the aircraft entry doors and hatches against unauthorized entry while unattended. This is not intended to require the contractor to secure the aircraft against forced entry. The Contractor shall accomplish these tasks through the use of mechanical devices (ground support equipment) and procedures.

3.2 **Frequency Allocation Data**

The Contractor shall provide the data necessary to complete a DD Form 1494, Application for Equipment Frequency Allocation, for each new, improved, commercial off-the-shelf, NDI, or government furnished equipment that will radiate electromagnetic energy into free space. The Contractor shall obtain the necessary authorizations to radiate for any testing necessary to FAA certify or qualify the BBJ. After submission of the necessary data, subsequent Applications, if required, will be completed by the Customer. (CDR1 A007)

3.3 **EMSEC Test**

The Government will perform a system level EMSEC test on the first production configured aircraft only, if necessary based on a review of the secure communications system design. The contractor will supply support personnel for EMSEC test conduct at a mutually agreed facility. Two, eight-hour shifts will be supported for the Government EMSEC test activities. The contractor shall provide an approved declassification capability for any contractor furnished computer memory used to process classified data.

3.4 **Management Processes**

The Contractor shall operate in accordance with the Derivative Airplane Programs Program Execution Plan (P3.P), after contract award, which outlines specific procedures and processes to be

Deleted: ~

Deleted: 2002

The Contractor shall conduct and provide facilities for management team meetings, to be held quarterly, or at greater intervals if mutually agreed. The Contractor shall provide schedule and technical status at these reviews.

The Contractor shall participate in and provide information and meeting facilities, agendas, and recording of minutes for all TIMs. The Contractor shall plan for TIMs as required to support the IPT approach to program management.

- a. The Contractor shall meet the requirements of the National Industrial Security Program Operating Manual (NISPOM). Appropriate administrative procedures and controls are established to ensure that sensitive information, hardware, and areas involved in the design, development, manufacture, assembly and test of system elements are provided the required degree of protection. All appropriate personnel will be familiar with the provisions of Operations Security (OPSEC), Communications Security (COMSEC), and Computer Security (COMPUSEC). The aircraft will be produced as a standard production aircraft using established Boeing policies, procedures and disciplines. Specific reference to the customer or end user of the aircraft will be minimized as it proceeds through production. No identifying markings that call attention to the aircraft during production will be affixed until the aircraft is painted.
- b. All classified Automated Information System (AIS) processing, discussions, documentation, and other work will be conducted only in the contractor's (or supplier's) facilities which have been approved by the Defense Security Service (DSS). In addition, classified AIS processing will commence only following procedural approval by DSS as well as TEMPEST Vulnerability Assessment Request (TVAR) approval by the Contracting Officer.

[illegible]

For each unique C-40 series configuration that includes Passenger Communication and Data Systems, the Contractor shall develop a Demonstration Plan for the Passenger Communication and Passenger Data Systems. The plan shall describe the demonstration of system functions in accordance with the Completion Specification, including demonstration setup and conduct, required Government participation, and evidence of successful completion. (CDRL A001)

3.5 Demonstration Plan

For each unique C-40 series configuration that includes Passenger Communication and Data Systems, the Contractor shall develop a Demonstration Plan for the Passenger Communication and Passenger Data Systems. The plan shall describe the demonstration of system functions in accordance with the Completion Specification, including demonstration setup and conduct, required Government participation, and evidence of successful completion. (CDRL A001)

3.6 Aircraft Range Assessment

The Contractor shall maintain a system design goal range of 5000 NM until delivery of the first C-40B aircraft. Periodic aircraft weight and range analyses shall be performed, and resulting metrics shall be reported at program reviews. Conditions and assumptions used in the analyses shall be documented as required. Final range of the as-built aircraft will be calculated in accordance with the FAA approved Aircraft Flight Manual.

DEPARTMENT OF DEFENSE CONTRACT SECURITY CLASSIFICATION SPECIFICATION (The requirements of the DoD Industrial Security Manual apply to all security aspects of this effort.)				1. CLEARANCE AND SAFEGUARDING	
				a. FACILITY CLEARANCE REQUIRED Secret	
				b. LEVEL OF SAFEGUARDING REQUIRED Secret	
2. THIS SPECIFICATION IS FOR: (X and complete as applicable)			3. THIS SPECIFICATION IS: (X and complete as applicable)

(1) Sensitive Compartmented Information (SCI)		<input checked="" type="checkbox"/>	<input type="checkbox"/>	f. HAVE ACCESS TO U.S. CLASSIFIED INFORMATION OUTSIDE THE U.S., PUERTO RICO, U.S. POSSESSIONS AND TRUST TERRITORIES	
(2) Non-SCI		<input type="checkbox"/>	<input checked="" type="checkbox"/>	g. BE AUTHORIZED TO USE THE SERVICES OF DEFENSE TECHNICAL INFORMATION CENTER (DTIC) OR OTHER SECONDARY DISTRIBUTION CENTER	
f. SPECIAL ACCESS INFORMATION		<input type="checkbox"/>	<input checked="" type="checkbox"/>	h. REQUIRE A COMSEC ACCOUNT	
g. NATO INFORMATION		<input type="checkbox"/>	<input checked="" type="checkbox"/>	i. HAVE TEMPEST REQUIREMENTS	
h. FOREIGN GOVERNMENT INFORMATION		<input type="checkbox"/>	<input checked="" type="checkbox"/>	j. HAVE OPERATIONS SECURITY (OPSEC) REQUIREMENTS	
i. LIMITED DISSEMINATION INFORMATION		<input type="checkbox"/>	<input checked="" type="checkbox"/>	k. BE AUTHORIZED TO USE THE DEFENSE COURIER SERVICE	
j. FOR OFFICIAL USE ONLY INFORMATION		<input checked="" type="checkbox"/>	<input type="checkbox"/>	l. OTHER (Specify)	
k. OTHER (Specify)		<input type="checkbox"/>	<input type="checkbox"/>	Notification of government security activity is required. See Addendum.	

12. **PUBLIC RELEASE.** Any information (classified or unclassified) pertaining to this contract shall not be released for public dissemination except as provided by the Industrial Security Manual or unless it has been approved for public release by appropriate U.S. Government authority. Proposed public releases shall be submitted for approval prior to release ☐ Direct ☒ Through (Specify)

ASC/PA
1865 4th St., Ste 15
Wright-Patterson AFB, OH 45433-6503

Contract Number: F33657-01-D-0013

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)* for review.
*In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

13. **SECURITY GUIDANCE.** The security classification guidance needed for this classified effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.)

- a. The National Industrial Security Program Operating Manual (NISPOM), Jan 95, applies to this contract.
b. Ref 10a/11h: COMSEC/Cryptologic Safeguarding requirements apply. See NSA Industrial COMSEC Manual (NSA Manual 90-1), October 2001 for details.
c. Ref 10j: For Official Use Only applies. See Addendum.
d. Ref 11c: Any classified information generated in the performance of this contract shall require the contractor to apply derivative classification and markings consistent with the source material. Special consideration apply. See Addendum.
e. Ref 11i: EMSEC Requirements apply. See Addendums.
f. Ref 11j: OPSEC Requirements apply. ASC/GRC will provide OPSEC requirements.
g. Ref 11k: Notification of Government Security Activity and Visitor Group Security Agreement applies: See contract clause in Section 1 for details. Performance will occur as follows:

Aircraft	Performance Location	Servicing Security Activity
C-32A	Andrews AFB	89th SFS/SFAI
C-40B	Andrews AFB / Hickam AFB	89th SFS/SFAI / 15th SFS/SFOS
C-40C	Andrews AFB	201st AS/DOMP

14. **ADDITIONAL SECURITY REQUIREMENTS.** Requirements, in addition to ISM requirements, are established for this contract. ☐ Yes ☒ No
(If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.)

15. **INSPECTIONS.** Elements of this contract are outside the inspection responsibility of the cognizant security office. ☒ Yes ☐ No
(If Yes, explain and identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.)

Contractor Performance will occur at Andrews AFB MD and Hickam AFB HI. DSS is relieved of all inspection responsibility for contractor performance on the installation. Servicing Security Activity (SSA) will maintain security oversight, at each Government installation. See Block 13g and 13i.

16. **CERTIFICATION AND SIGNATURE.** Security requirements stated herein are complete and adequate for safeguarding the classified information to be released or generated under this classified effort. All questions shall be referred to the official named below.

a. TYPED NAME OF CERTIFYING OFFICIAL	b. TITLE	c. TELEPHONE (Include Area Code)
JOSEPH C. LEISING	Contracting Officer	937-656-9513

d. ADDRESS (Include Zip Code)

ADDENDUM TO DD FORM 254 (Block 10j)
FOR OFFICIAL USE ONLY (FOUO)
(Reference DoD Regulation 5400.7/Air Force Supplement, 22 July 1999.)

1. **GENERAL:** FOUO is information that has not been given a security classification pursuant to the criteria of an Executive Order, but which may be withheld from the public because disclosure would cause a foreseeable harm to an interest protected by one or more of the Freedom of Information Act (FOIA) exemptions 2 through 9. Additional information on FOUO may be obtained by contacting the User Agency. FOUO is assigned to information at the time it is created in a DoD Agency or derivatively as instructed in a Security Classification Guide.

2. **MARKING:**

a. FOUO information received (released by a DoD component) should contain the following marking, when received: **THIS DOCUMENT CONTAINS INFORMATION EXEMPT FROM MANDATORY DISCLOSURE UNDER FOIA. EXEMPTION(S) _____ APPLIES/APPLY.**

b. Mark an unclassified document containing FOUO information "FOR OFFICIAL USE ONLY" at the bottom of each page containing FOUO information and on the bottom of the front page or front cover (if any) and on the back of the last page and on the back cover (if any). Each paragraph containing FOUO information shall be marked as such.

c. Within a classified document, an individual page that contains both FOUO and classified information shall be marked at the top and bottom with the highest security classification of information appearing on the page. Individual paragraphs shall be marked at the appropriate classification level, as well as unclassified or FOUO, as appropriate. An individual page that contains FOUO information but no classified information shall be marked "FOR OFFICIAL USE ONLY" at the top and bottom of the page, as well as each paragraph that contains FOUO information. NOTE: For "production efficiency" the entire document may be marked top and bottom with the highest level of classification contained within it, as long as every paragraph is marked to reflect the specific classification of the information it contains.

d. Mark other records, such as computer print outs, photographs, films, tapes, or slides "FOR OFFICIAL USE ONLY" so that the receiver or viewer knows the record contains FOUO information.

e. Mark each part of a message that contains FOUO information. Unclassified messages containing FOUO information must show the abbreviation "FOUO" before the text begins.

3. **DISSEMINATION:** FOUO may be disseminated between officials of DoD Components, DoD contractors, consultants and grantees to conduct official business for DoD. Recipients shall be made aware of the status of such information and transmission shall be by means that preclude unauthorized public disclosure.

4. **TRANSMISSION:** FOUO information shall be transmitted in a manner that prevents disclosure of the contents. When not commingled with classified information, it may be sent via first-class mail or parcel post. Bulky shipments, i.e. testing materials, that otherwise qualify under postal regulations, may be sent by fourth-class mail. FOUO information may also be sent over facsimile equipment; however, when deciding whether to use this means, balance the sensitivity of the records against the risk of disclosure. Consider the location of sending and receiving machines and ensure authorized personnel are available to receive the FOUO information as soon as it is transmitted. Transmittal documents shall call attention to the presence of FOUO attachments. FOUO information may also be sent via e-mail, if it is sent via a system that will prevent unintentional or unauthorized disclosure.

5. **STORAGE:** To safeguard FOR OFFICIAL USE ONLY records during normal duty hours, place them in an out-of-sight location if your work area is accessible to persons who do not have a valid need for the information. After normal duty hours, store FOUO records to prevent unauthorized access. File them with other unclassified records in unlocked files or desks when normal internal building security is provided. When there is no internal building security, locked buildings or rooms normally provide adequate after-hours protection. If such protection is not considered adequate, FOUO material shall be stored in locked containers such as file cabinets, desks, or bookcases. *Expenditure of funds for security containers or closed areas solely for the protection of FOUO data is prohibited.*

6. **DESTRUCTION:** When no longer needed, FOUO information shall be disposed of by any method that will preclude its disclosure to unauthorized individuals.

Effective 12 February 2002

ADDENDUM TO DD FORM 254 (Block 11c)
SPECIAL CONSIDERATIONS
(AFMAN 33-214V EXTRACT)

3.4. Special Items. People may innocently introduce other radio devices, such as pagers, hand-held portable transceiver radios, cellular telephones, cordless telephones, and cordless microphones into the area processing classified information with disastrous results. Also, alarm systems may use radio transmitters to alert remotely located security or fire-fighting teams.

3.4.1. Hand-Held Radios. These countermeasures are required. Hand-held radio transceivers used with intrabase radios and land mobile radios deserve special consideration because of their unique operational applications. A person may carry these devices into an area where classified information is processed. If the person carrying such a device works in the facility, either turn off the device and use the telephone or separate it 2 meters from classified processors: no transmissions are allowed. If the person carrying the device is a short-term visitor, it is not necessary to turn off the radio because the visitor usually moves about in the facility. Infrequent transmissions are allowed, but only for short durations.

3.4.2. Beepers and Pagers. These countermeasures are required. Beepers and pagers deserve special consideration because of their unique operational applications. A person may carry these devices into an area where classified information is processed. If the person carrying such a device works in the facility, either turn off the device and use the telephone or keep the device 2 meters from classified processors. If the person carrying the device is a short-term visitor, it is not necessary to turn off the device because the visitor usually moves about in the facility. If the device has a transmit capability, follow the instructions for hand-held radios.

3.4.3. Alarm Systems. These countermeasures are required. The mode of operation of alarm systems radio frequency transmitters will determine their treatment. Any such transmitter with a continuous transmit mode or a high duty cycle (transmits most of the time) must meet the same separation requirements as all other fixed transmitters; follow the applicable guidance in paragraph 3.3. If they do not meet these requirements, exclude them from operating in the classified information processing area. Low duty cycle (transmits short bursts infrequently) systems are not considered hazards and require no special treatment.

3.4.4. Cellular Telephones. These countermeasures are required. When a cellular telephone is used as an operational necessity separate it 5 meters from RED equipment. When the cellular telephone is a personal asset, its use is prohibited. Disable the unit from receiving calls or separate it 10 meters from RED processors. Cellular telephones are excluded from operating within 10 meters of the classified information processing area when the facility is located outside the United States.

3.4.5. Cordless Telephones. These countermeasures are required. When a radio frequency cordless telephone is used as an operational necessity, separate it 5 meters from RED equipment. When the cordless telephone is a personal asset, its use is prohibited. Disable the personal cordless telephone from receiving calls or separate it 10 meters from RED processors. There are no separation requirements for infrared cordless telephones. Cordless telephones are excluded from operating within 10 meters of the classified information processing area when the facility is located outside the United States.

3.4.6. Cordless Microphones.

3.4.6.1. Radio Frequency Cordless Microphones. These countermeasures are required. When a radio frequency cordless microphone, encrypted or unencrypted, is used for briefing either classified information or unclassified information, separate it 10 meters from RED equipment. Using unencrypted radio frequency cordless microphones for classified briefings is prohibited.

3.4.6.2. Infrared Cordless Microphones. These countermeasures are required. Using an infrared cordless microphone for briefing classified information requires blocking the line of sight to a possible place where an adversary could detect the infrared emanations. Do not forget that smooth or shiny surfaces cause infrared signals to be reflected. The best solution is to use a closed room, keeping the doors closed and covering the windows with drapes.

3.5.7. Cordless Accessories. These countermeasures are required. When a radio frequency cordless accessory such as a keyboard or a mouse is used, separate it 5 meters from RED equipment. Radio frequency cordless accessories cannot be used to process classified information unless encrypted.

3.4.8 Wireless Local Area Networks (LAN). These countermeasures are required. When a radio frequency wireless LAN is used, separate the transmitter and receiver units 5 meters from RED equipment.

3.4.9 Infrared LANs. These countermeasures are required. An infrared LAN processing classified information requires blocking the line of sight to a possible place where an adversary could detect the infrared emanations. Do not forget that smooth or shiny surfaces cause infrared signals to be reflected. The best solution is to use a closed room, keeping the doors closed and covering the windows with drapes.

3.4.10 Infrared Devices. These countermeasures are required. Infrared devices not covered by any subparagraph of paragraph 3.4 requires blocking the line of sight to a possible place where an adversary could detect the infrared emanations. Do not forget that smooth or shiny surfaces cause infrared signals to be reflected. The best solution is to use a closed room, keeping the doors closed and covering the windows with drapes.

NOTE: If guidance in paragraph 3.3 on Alarm signals is needed, please contact the Program Manager/Contract Monitor to obtain.

Effective 9 April 2002

ADDENDUM TO DD FORM 254 (Block 11i)
EMISSION SECURITY (EMSEC) REQUIREMENTS
(FORMERLY TEMPEST REQUIREMENTS)

EMISSIONS SECURITY ASSESSMENT REQUEST (ESAR)

FOR ALL CLASSIFIED SYSTEMS

1. The contractor shall ensure that compromising emanations (EMSEC) conditions related to this contract are minimized.
2. The contractor shall provide countermeasure assessment data to the Contracting Officer (CO), in the form of an ESAR. The ESAR shall provide only specific responses to the data required in paragraph 3 below. The contractor's standard security plan shall **NOT** be used as a "stand-alone" ESAR response. The contractor shall **NOT** submit a detailed facility analysis/assessment. The ESAR information will be used to complete an EMSEC Countermeasures Assessment Review of the contractor's facility to be performed by the government EMSEC authority using current Air Force EMSEC directives. EMSEC is applied on a case-by-case basis and further information may be required to complete the review. The contractor shall provide this information to the CO when requested. After the evaluation of the ESAR by the government EMSEC authority, additional EMSEC requirements may be necessary. When changes to the information required in paragraph 3 below occurs (including, but not limited to, relocation, additions, or deletions of equipment from the original approved room), the contractors shall notify the CO of these changes. Upon request, the contractor shall submit to the CO a new ESAR, identifying the new configuration at least 30 days before the change occurs. The contractor shall **NOT** commence processing with the new configuration until receiving, as a minimum, interim approval from the CO.
3. *ESAR contents shall include, as a minimum, the following information:
 - a. The specific classification and special categories of material to be processed/handled by electronic means. Include percentage of each classification level used including unclassified (i.e., 5% Top Secret, 10% Secret/SAR, 25% Secret, 60% Unclassified).
 - b. The specific location (complete address, building/room number, or office) where classified processing will be performed. Include identification of any other contractor/company located within 200 meters of the facility.
 - c. Attach a copy of the Defense Investigative Service (DIS) Form 147 to validate physical security and approved storage level of the facility.
 - d. Provide the name, title, and telephone number (commercial and/or DSN) of a point of contact at the facility where processing will occur.
4. The prime contractor shall ensure that all subcontractors and/or vendors comply with EMSEC requirements when performing classified processing related to this contract. The subcontractor will provide the above documentation through their prime to the CO to complete the ESAR.

***NOTE: A copy of your Automated Information System Security Plan(s) (AISSP) will suffice.**

ADDENDUM TO DD FORM 254 (Block 11L)

NOTIFICATION OF SERVICING SECURITY ACTIVITY

1. Thirty days **before** the date Contractor operations will begin on the Government Installation, the Contractor shall provide the **Servicing Security Activity** the following information:

- a. The name, address, and telephone number of your company's Facility Security Officer and your designated on-site security representative;
- b. The contract number and military contracting command;
- c. The highest classification category of defense information to which Contractor employees will have access;
- d. The date Contractor operations will begin on the installation;
- e. The estimated completion date of operations on the installation;

2. This requirement is in **addition** to visit request notification procedures contained in DoD 5220.22M, National Industrial Security Program Operating Manual, Chapter 6.
